

SACD-350/450

Multi-Function Non-Stop Turret Rewinder

RAW MATERIAL → FINISHED PRODUCT

FEATURES

- Servo controlled with 100% success splicer.
- Equipped with shear slitting units.
- Dual turret rewriter with differential shafts.
- Easy operation to connect with main machine without any cables.
- Professional for thicker ABL/BPL materials.

MAIN TECHNICAL VARIABLES

Model	SAC-450
Max Web Width	Φ450mm
Max.rewinding Diameter:	650mm
Max. Speed:	150m/min
Unwind Tension Precision	±2%
Paper Splicing Method	Automatic pre-speed paper
Unloading	Manual
Total Power	9.5KW
Voltage	380V, 50Hz, 3Phase
Machine Weight	About 2200KGS
Machine Size (LxWxH)	1900mm × 1850mm

Note: All technical parameters are subject to change without notice.

Dual Turret Rewinder With Differential Shafts
